

## ABOUT QUALITY TREE SERVICES:

Quality Tree Service is an experienced tree service company located in Halton Hills, Ontario. We offer a comprehensive line of year round tree services and solutions to customers throughout Ontario. Quality Tree Service is wholly owned by Halton Hills Community Energy Corporation and is managed by Murray Anderson, Certified Ontario Arborist with 28 years of experience.

## OUR SOLUTION

- We provide reliable, expert tree services for municipalities, utilities and private customers.
- Our team is fully certified to work around power lines and provides professional, safe, reliable services on a long term basis to a number of municipalities and utilities.
- Our licensed fleet includes aerial forestry bucket trucks, stump grinders, chippers, chain saws and ancillary tools. All equipment is insured and regularly maintained.
- Our fully trained team includes a Certified Ontario Arborist as well as an ISA Certified Arborist.
- Storm damage and emergency services available.

## TREE TRIMMING

Our experienced arborists will safely and efficiently remove deadwood, shape or control growth, reduce the risk of falling branches and improve or maintain the health of your trees.

## TREE AND STUMP REMOVAL

We have the specialized equipment and qualified team to safely remove dead or unwanted trees and stumps.

## UTILITY LINE CLEARING

Our crews and vehicles are certified to work around high voltage utility power lines. We provide safe, reliable, expert services to municipalities and utilities throughout Ontario.

### DEEP ROOT FERTILIZING

We can help keep your trees healthy with deep root fertilization. Unlike traditional fertilization methods that distribute feed onto the tree's surface, the deep root fertilization process distributes the feed under the soil's surface near the roots. Our high powered fertilizing equipment delivers feed directly to the tree roots for improved tree health

### SAFETY:

Safety of our employees and the community is our number one priority, always. Our best in class safety program includes:

- Ongoing health and safety training
- An environment for continuous improvement
- Safety-First work environment
- Meet or exceed all applicable standards and legislation
- Our employees are driven to continually improve safety on the job
- WSIB Clearance and Insurance Certificates available on request
- No loss time accidents since incorporation.
